## EDUCATION

B.Tech-Artificial Intelligence and Data Science 2024 – 2028
KGiSL Institute of Technology , Coimbatore CGPA:8.52
Higher Secondary Certificate 2024
GGHSS , Kambainallur , Dharmapuri 85.6 Percent
Secondary School Leaving Certificate 2022
GHSS , Odasalpatti , Dharmapuri 82.4 Percen

## TECHNICAL SKILLS

Programming Languages: Python, Java
n Data Science & AI: Machine Learning, Data Analysis, Data Visualization
n Libraries & Frameworks: NumPy, Pandas, Scikit-learn, TensorFlow
n Databases: MySQL, MongoDB
n Tools & Technologies: Power BI, Microsoft Excel, Git, GitHub
n Web Technologies: HTML, CSS, JavaScript
n Cloud: AWS (Basics)

## ACADEMIC PROJECTS

Smart City Complaint Management System | 2024
n Developed a web-based platform for citizens to register and track complaints related to civic issues.
n Implemented complaint categorization, status tracking, and centralized complaint management.
n Designed an efficient system to improve transparency and streamline complaint resolution.
n Technologies: Python, HTML, CSS, JavaScript, MySQL
AI-Based Skin Disease Detection System | 2026
n Developed an AI-based system to classify skin diseases from uploaded skin images using deep learning.
n Implemented image preprocessing and a CNN-based MobileNetV2 model for image classification.
n Integrated prediction results with confidence scores and a user-friendly interface.
n Technologies: Python, TensorFlow, Keras, MobileNetV2, Flask, React.js

## INTERNSHIP / EXPERIENCE

ntern - Pumo Technovation | June 2026 | 18 Days
n Worked on data preprocessing, analysis, and machine learning using Python.
n Performed data analysis and visualization using Pandas, NumPy, SQL, Power BI, and Excel.
n Gained hands-on experience in preparing datasets, exploring data, and developing basic machine learning solutions.

## CERTIFICATIONS

Infosys Certification – Project-Data Analytics with Data Exploration Case Study | 2026
Coursera - Machine Learning Fundamentals

## LANGUAGES

English,Tamil
